

CAPACITOR SUBSTITUTION BOX - 11x caps

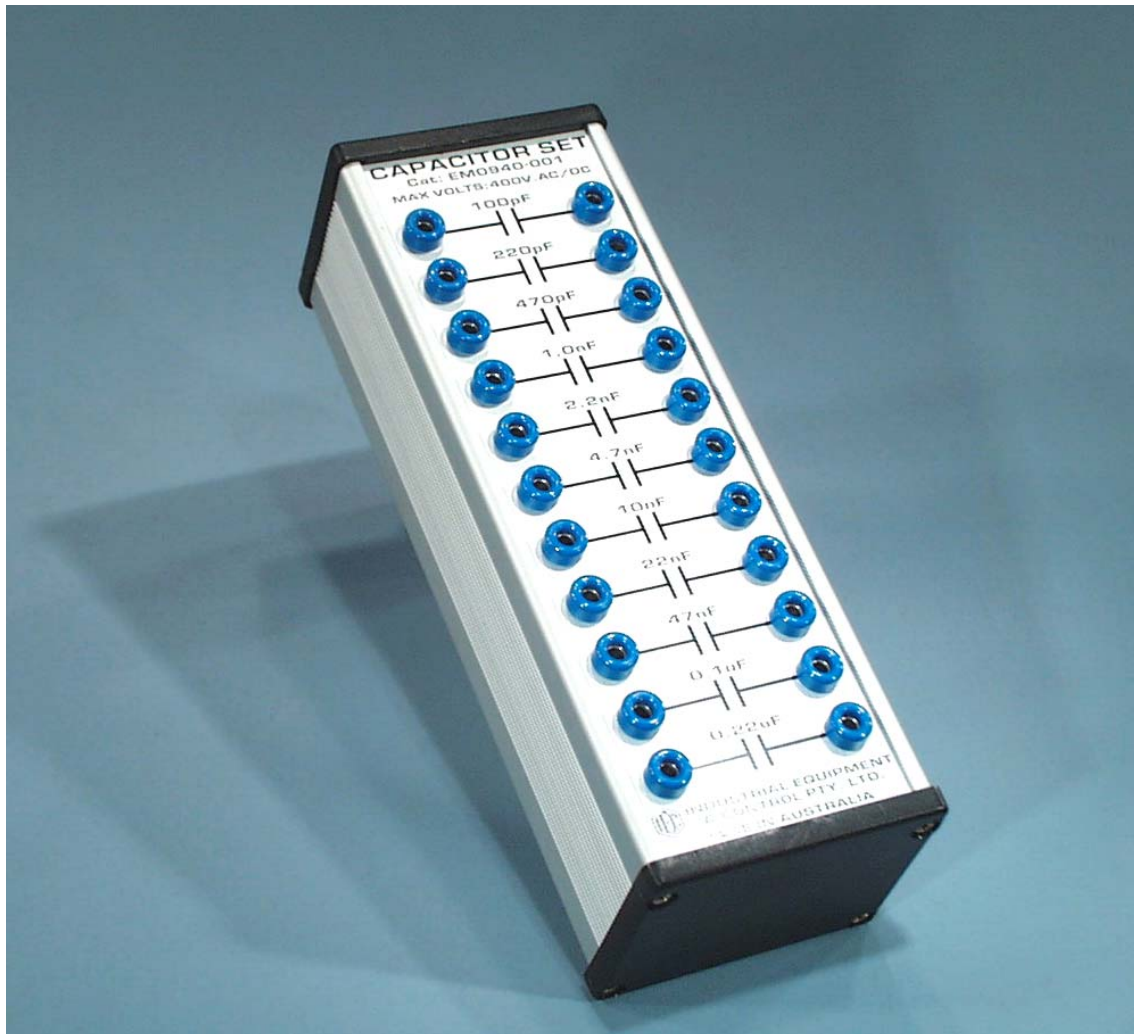

Cat: EM0940-001 11 capacitors 250V

DESCRIPTION: Accuracy: +/- 5% at any setting.

Capacitor box, set of 11 capacitors connected to 4mm sockets.

100pF, 220pF, 470pF, 1.0nF, 2.2nF, 4.7nF, 10nF, 22nF, 47nF, 0.1uF, 0.22uF.

EM0940-001 set/ 11 capacitors

Physical size: 240x75x70mm LxWxH

Weight: 0.42 kg

Used to introduce a selected capacitance into any electrical circuit.

Select capacitor required with cables fitted with 4mm plugs. Capacitors may be connected in series or parallel for measurement and study.

Designed and manufactured in Australia
