

# 'TechTray' – dissecting/multipurpose tray for biology & chemistry labs

Rule cm/mm molded on both sides of tray

Autoclavable glass filled polypropelene for chemical resistance

Easy to clean & large spill well around working surface

Anti-slide. Low profile rubber feet to grip the table

Eight Anchor Points (auto lock) for spreading dissection samples. Four locks on each side.

Removeable,disposable & washable dissecting mats. Tough enough to cut on but flexible enough to insert pins

When used as a chemical experiment tray, the dissecting mat is easily removed.

Dims:  
Overall 470 x 335mm l x w  
Workable area: 340 x 290mm l x w  
Height: 21mm

Instrument & tool tray

- STACKABLE
- NON-SLIP BASE
- LIGHT WEIGHT
- AFFORDABLE
- HYGENIC
